Bilateral Meetings

- Tuesday 13:00-16:00

Description

The main activity of Fibraworld is the productions profiles of fiberglass, or polyester resin and glass fibers as reinforcements. As opposed to iron products, fiberglass profiles are much lighter, they don't rust, they don't need to be painted because they are already produced in the desired colour, they are resistant to chemical agents, they are resistant to high and low temperatures, they don't conduct electricity, they are waterproof,etc.
