- Tuesday 13:00-16:00
- Wednesday 11:00-13:00

Description

The company SIMING d.o.o. with its headquarters in Jesenice na Dolenjskem/Slovenia was founded in 1993 as a family owned private company. The company's main activities are distribution, representation and service of mining, tunnelling and low construction civil engineering equipment. With the adoption of representation of ThyssenKrupp Bauservice, the company started the equipment rental business and entered the domain of special low construction civil engineering.
